

ABS BRAKES

GALLERY 6

What do these letters stand for?

A _____

B _____

S _____

Explore the display and look for:

- the steering wheel
- the controller
- diagram of electronic components in a car

Look closely and watch the video. What do you notice about how the vehicles stop or continue moving?

Did you know?

Vehicles with ABS brakes have a controller (computer) that senses when the car loses traction and controls the speed of the wheels.

APOLLO 11

GALLERY 7

Women in Tech!— A team at MIT wrote code for the Apollo 11 mission to land on the moon. **Look closely** and find the name of the lead engineer:

Think and share!

How is this computer different than the ones you use at school or at home?

Create your own mission. **Write** or **draw** items you would bring to space!

SHAKEY THE ROBOT

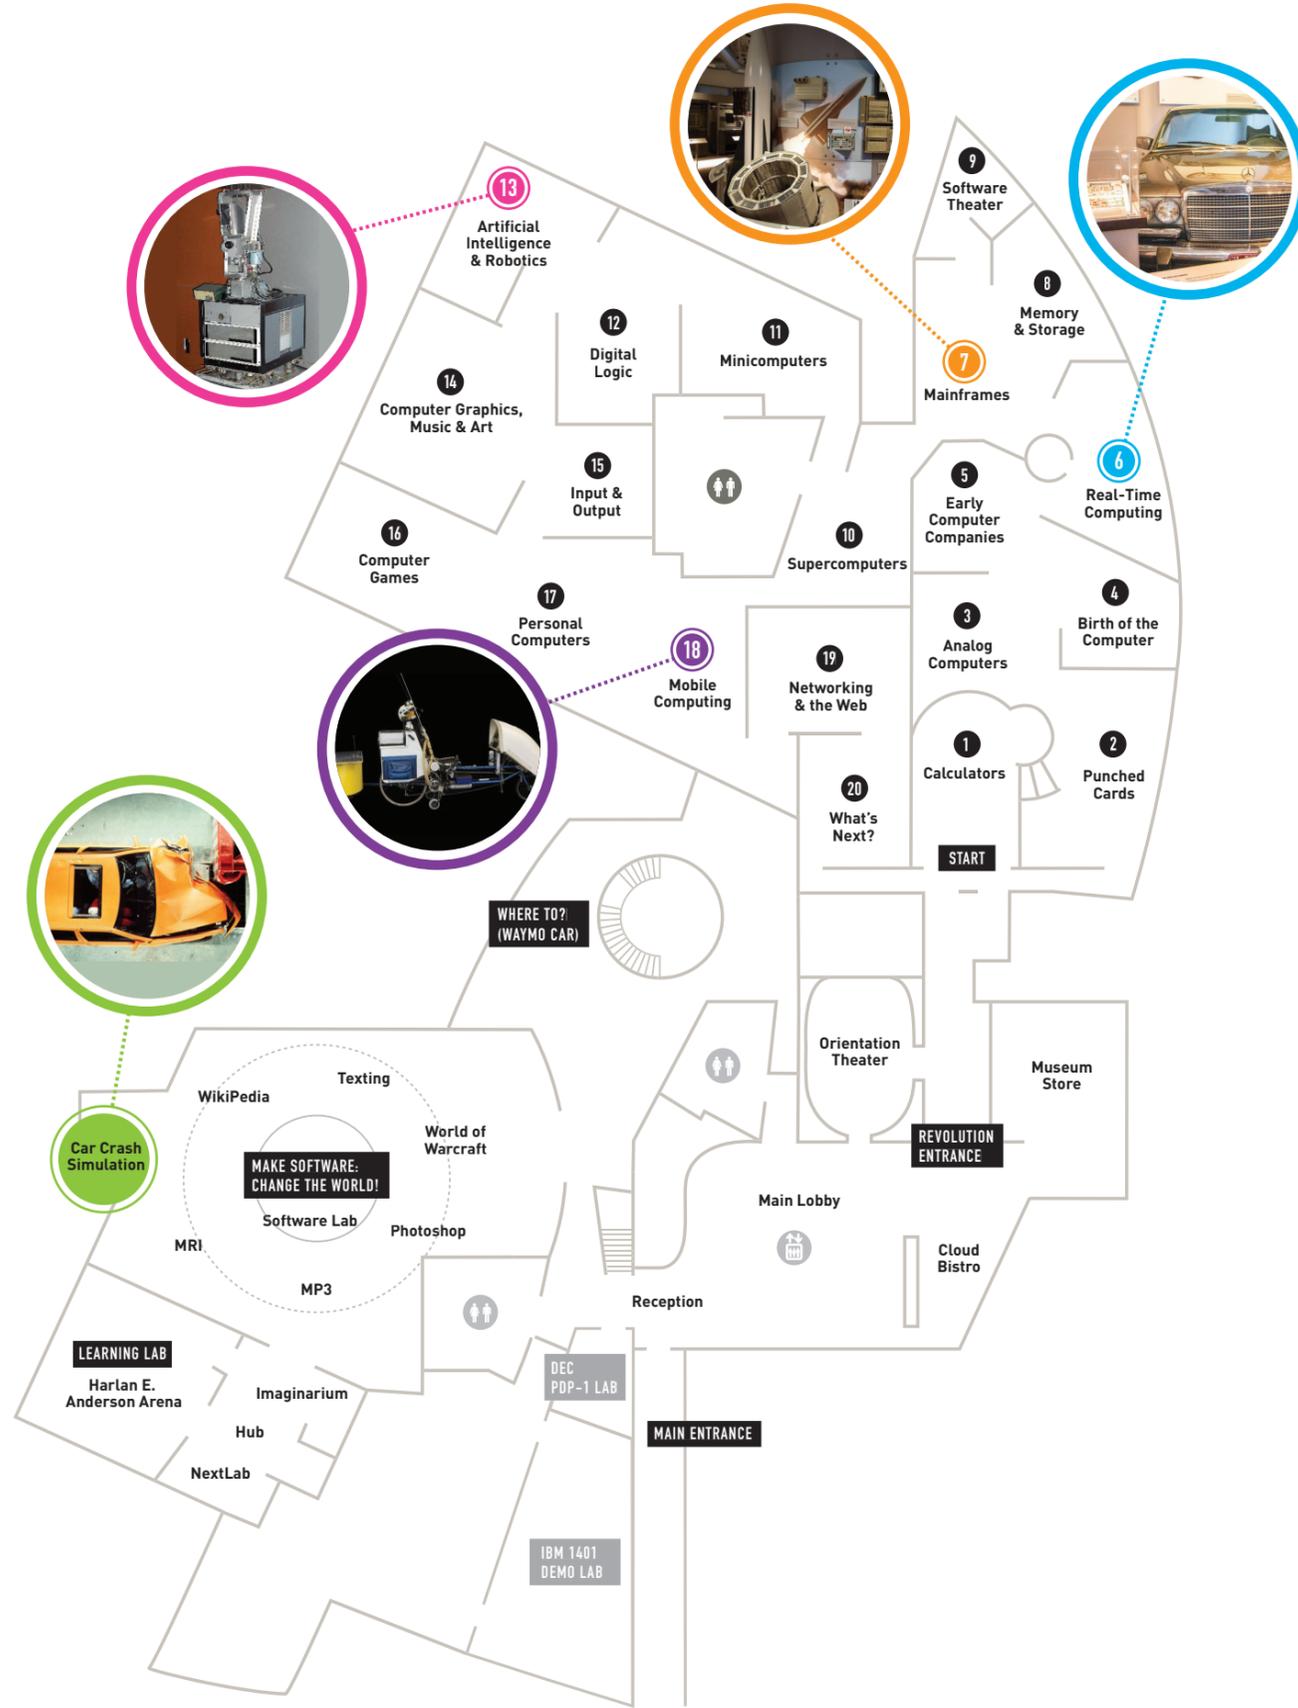

GALLERY 13

Look closely at the robot. Find two examples of how SHAKEY gets information from its environment:

Think and share!

How do self-driving (*autonomous*) vehicles or drones today use sensors, cameras, and technology similar to SHAKEY?

Create an image with your group! Take a photo with SHAKEY and post it on social media @ComputerHistory with #ExploreCHM.

BEHEMOTH

GALLERY 18

Explore the artifact and list ways that innovator Steve Roberts incorporated different technologies into BEHEMOTH:

The BEHEMOTH weighs 580 pounds! **Look closely** at the items below and circle two objects that you think weigh approximately the same amount:

1,510 iPhones

1 skateboard

23 Osborne computers (Find one in Gallery 18)

The Golden Gate Bridge

Think and share!

How do you and your family benefit from mobile technology?

Make Software: Change the World!

CAR CRASH SIMULATION

Look closely at the touch screen kiosk to learn how this technology has changed and improved over time.

Create your own crash test dummy to help test cars!

Explore the crashed car and sit inside. List three areas of impact you can find on the car and in the crash video:

Launch into the future! **Imagine** and **draw** a transportation device that you will use for travel in the future:
